Quick Tips

Daily activities are guaranteed to cause normal wear and tear on your apartment. Though normal wear and tear is expected, what is supplied is still the responsibility of the Tenant to maintain.

For example, light bulbs, mini blinds, smoke detector batteries, etc., are supplied at move in. Should they need to be replaced during your tenancy, we are happy to take care of that on your behalf, though please anticipate the cost.

Certain items, such as batteries, miniblinds, and copies of keys, can cost considerably less at a local hardware store, than if you were to utilize the Tide Mill Maintenance

Staff. We have included the list to update the community in preparation for move outs as well as spring cleaning repairs.

As always, we are more than happy to complete all repairs and replacements. We would simply like to make our Residents aware of the expected cost, and should you wish to complete it on your own, you may, of course, do so.

If you have any questions, feel free to contact the Tide Mill Leasing Office at any time.

It's not too late to get that perfect gift for your mom, or mother figure! May 14th is just around the corner, and sometimes the most simple gifts are the most well received.

We like this simple craft idea that's easy for the kids to make, and also easy on the wallet.
