## Quick Tips

Want to take full advantage of this lovely spring weather? How about gardening?

Gardening on a small scale can be quite enjoyable and informative. Did you know that Lavender can repel mosquitoes, flies, fleas and moths? How about reducing stress and anxiety levels? Amazing!

If you're looking for something that is easy to grow in a pot and manageable, herbs are a sure bet! Tomatoes, peppers, raspberries, strawberries, and blueberries are also easy options that can grow well in pots.

Before you purchase your plants, watch to see how much sun your patio or balcony space receives. Eight hours of direct sunlight per day is considered full sun. Four to six hours is considered partial

shade, and less than four hours is shade. Be sure to chose plants and/or shrubs appropriate for the amount of light available.

When all else fails, we do have our garden area near the leasing office that you are welcome to partake in. Anything that grows, you are welcome to. However, should you take something, please aid in the care and pull a weed or two should you see any. Let's all do our part so everyone may enjoy the amenities on property!

## Mother's Day ~ May 13th

It's not too late to get that perfect gift for the Mom(s) in your life! May 13th is almost upon us, and sometimes the most simple gifts are the most cherished.

Easy ideas that are always a winner include a nail salon gift card, or taking them out to a meal (breakfast/lunch/dinner). The time spent is always a wonderful gift.

There are also nifty ideas that can be made to make her feel special. We like this simple craft idea that's involves the

whole family, and also easy on the wallet.
